## INTERIOR INSPIRATION

Here's a sneak peek at the bar inside former England footballer Ashley Cole's Surrey Hills home. Designed by The Living Room, the bar has a 1920s feel but was designed with comfort in mind. The bar chairs and upholstered panels – a soulful green colour – provide elegance, while the cabinetry, in a matt black finish with brass trims, is sleek and classically modern. The bar unit has

been clad with Italian antique-stained mirrors to give depth and volume to the overall look, while a custom-made bench has been fitted to the side with fluted back panels for added comfort and style. Oh, and let's not forget the LED lighting providing an Instagram-worthy backdrop for those special Champagne-popping moments. [thelivingroomlondon.com](http://thelivingroomlondon.com)
